**23<sup>RD</sup> ANNUAL CONFERENCE  
AND PRODUCT SHOWCASE**

**Sheraton Downtown Denver  
October 2024**

Decorative Plumbing + Hardware Association

## 2024 DPHA Product of the Year Guide

**DPHA recognizes the outstanding efforts and contributions of the 2024 DPHA Awards Committee.**

**A special thank you goes to the 2024 Committee Chairs Ryan Paul of Summit Architectural Resource LLC and Jim Babbitt, DPHA Chief Emeritus Director**

**Judging for the 2024 DPHA Product of the Year Awards was outsourced. Entries were judged by a distinguished panel of media, marketing and industry luminaries who evaluated each entry based on design and technological innovation.**

## 2024 DPHA Product of the Year Award Judges

**Alena Capra** is an interior designer with 20 years industry experience, and the owner of the Fort Lauderdale, FL based firm, Alena Capra Designs. In addition to designing in South Florida, Alena also has worked on design projects nationwide. She is a Certified Master Kitchen and Bath Designer, whose projects have won national awards, and been featured in national and regional media outlets.

A graduate of the University of Miami and the Metropolitan Institute of Design, Alena was named one of four finalists for the NKBA's Professional of the Year Award in 2016, and was selected as one of six "Praiseworthy Picks," for *Kitchen & Bath Business* magazine's 2019 Person of the Year, and named as one of *Kitchen & Bath Design News* Top 50 Innovators in 2019.

For the past ten years, she has served as the Industry Ambassador for Coverings, the largest global tile and stone exhibition in North America. She is also a brand ambassador for Robern. Beyond her work as a designer, she spends time as an on-air television personality, sharing her design expertise on local and national TV, on design-related educational videos, at home shows, showroom openings and other industry events. She has been featured on Lifetime, DIY, History Channel, H2, and she currently hosts the weekly home design show, SoFlo Home Project, on the ABC affiliate in Miami/Fort Lauderdale, WPLG Local 10. She has hosted over 200 episodes to date, and enjoys bringing an inside look at all that's trending in the design industry to viewers every week.

**Eric Goranson**, CKD is a Certified Kitchen Designer with the National Kitchen and Bath Association for more than 20 years and has been designing since 1993. Nationally recognized as "Eric G®", he is a syndicated 10-year home improvement radio talk show host. Eric talks with homeowners and contractors about remodeling and new construction techniques every week. He is also a national podcaster and is now heard internationally and with about half of the listening audience being from the building trades. His shows draw great support from the contracting community. Eric also hosts the Around

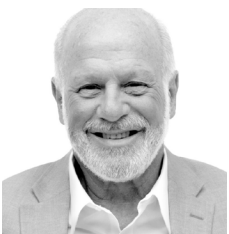

the House "Pro Insider" podcast that is for the residential building and remodeling professionals.

Eric has managed everything from home builders, design firms, to custom cabinet shops and has been involved in thousands of projects being constructed or remodeled. Eric also consults with national brands on product design and industry trends, with companies such as Baldwin Hardware, Kraft Maid Cabinetry, and many more. From opening keynote addresses to hands on training seminars, Eric uses his communications skills to inspire and educate the people that are attending his events. Eric is a design and home technology speaker at national construction and remodeling events such as the Northeastern Retail Lumber Associations Lumber and Building Materials Expo, National Kitchen and Bath, Association's Voices from The Industry, and for the National Association of Home Builders.

Eric was a *Kitchen and Bath Design News* Top 50 Innovator for 2019 and served on the Baldwin Hardware Design Council: 2017-2019. He enjoys home renovation projects and use to play the bass in Seattle rock bands.

As founder and Principal Designer of Studio Garrison, **Garrison Hullinger**, transformed his one-man studio into a nationally recognized firm with a prestigious portfolio of work. Passionately involved in the design community, Garrison regularly speaks at conferences and has achieved great recognition for his contributions to the industry. His work has earned him a Golden Nugget award for interiors, 18 Houzz awards in nine years, an esteemed position as a judge at the KBIS Award Ceremony, and a member of the Zillow advisory board. Garrison is always busy with residential, hospitality, and commercial projects, but his recent work is particularly staggering in both size and range. One project is a new four-star resort in Deer Valley, Utah. This resort has 395 guest rooms, 20,000 square feet of conference hotel space, three restaurants, and two bars. Garrison is also designing the 62 private residences in two different schemes at the same property. Another project that's keeping his life exciting is Four Seasons Vail, where he's working with a highly-curated team of designers to design opulent suites and residential homes on the mountain. Garrison is a strategic thinker who understands the luxury market from all angles. He knows how to scale without losing sight of the smallest—and most impactful—details. Studio Garrison isn't known for one singular aesthetic, but when you walk into a room Garrison designed, you know it instantly. He has the uncanny ability to make any space timelessly elegant, and feel exactly as it should.

**Eliot Sefrin** is the founding editor and longtime publisher of *Kitchen & Bath Design News*, which is celebrating its 40th year of publishing in 2024 and is widely considered to be the leading trade magazine serving the kitchen and bath market.

KBDN has helped shape, define and educate the kitchen and bath industry, while helping raise the professionalism and profitability of its 45,000+ monthly readers through both its print publication and seminar programs, which deliver live education to kitchen/bath professionals in key U.S. markets.

Sefrin partnered with DPHA to create the DPH Perspectives column nearly two decades ago, a column that is still published exclusively in *Kitchen & Bath Design News*. Sefrin has also served as a speaker at NKBA chapter meetings, as well as at the Kitchen & Bath Industry Show (KBIS). He was inducted into the National Kitchen & Bath Association's Hall of Fame in 2008 and in 2012 became the only member of the media ever to be afforded honorary membership in the Kitchen Cabinet Manufacturers Association (KCMA) in recognition of his service to the industry.

**Molly Switzer** launched Molly N. Switzer Designs LLC in 2017 after she held positions at Chown Hardware and Precision Countertops for nearly a decade. Molly N. Switzer Designs LLC focuses on residential interior design with emphasis on kitchen and bath. The firm also has acquired an expertise in home-connected technology, offering guidance, design and product specification for smart home applications and products.

Molly also helps train local designers, hosting lunch and learns and happy hour opportunities for product reps to educate the design community to better understand new product launches and new lines.

**Alissa Ponchione** has worked in trade journalism for most of her career, writing for *Nightclub & Bar*, *Hotel News Now* and, currently, as executive editor of *Hospitality Design* magazine, a leading publication in the hospitality industry. She has a degree in journalism from Ohio University, and a master's in literature from American University.

## Product of the Year • Cabinet Hardware Nominees

### Thom Filicia for Accurate, Aurora Collection Accurate Lock & Hardware

The Thom Filicia for Accurate, Aurora Collection of cabinet hardware is comprised of five unique silhouettes: rectangular pull, T-bar, round knob, oval knob and hexagonal knob. Each piece showcases laser etched designs ranging from a pattern to match one of Thom's wallpapers to a simple herringbone. Available in a wide range of different finishes and sizes...from 4" to 18" appliance pulls.

### Berkshire Belwith Keeler

The Collection is inspired by the serene and nostalgic atmosphere of The Berkshire Mountains and captures the essence of peaceful, nostalgic mornings in a timeless sanctuary.

Two modernized cup pulls, one elongated size, both with double boring for multiple size applications per single product. This lessens the carbon footprint in production. Deeper finger pocket enhances tactile experience.

The Collection includes six cabinet pull sizes, distinctively styled knobs, two elegant cup pulls, two appliance pulls and six finishes: brushed golden brass, satin nickel, polished nickel, polished chrome, matte black and champagne bronze.

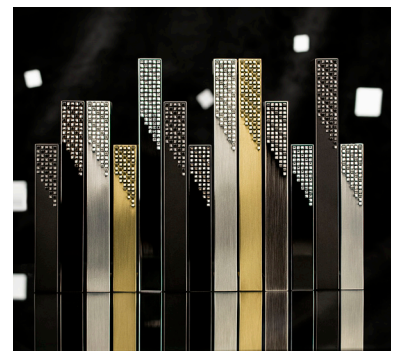

### Bijou III Collection Belwith Keeler

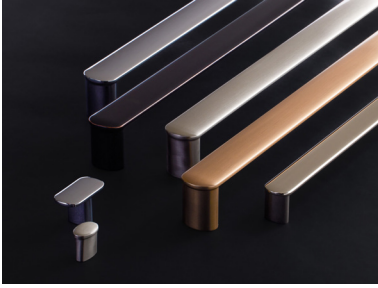

The Bijou Collection embodies an innovative fusion of historical design and modern elegance. The Collection includes 11 pieces that include the 33-inch long Paramount pull available in acrylic, black, clear and Tortoise shell. The Akoya Knob is inspired by the spherical form of Akoya pearls, capturing eternal simplicity and timeless appeal. The Luminescence Pull features a linear Art Deco-inspired linear pattern. This cabinet hardware is available in satin nickel, matte black, and brushed golden brass finishes.

### Roque Berenson

This cabinet hardware features a stylish dash of texture across a portion of the surface that required special production techniques to pull off. The texture is a grid with alternating slants giving it a complex pattern that reflects light for a unique visual.

### **Habitat Collection** **Emtek**

Aptly named “Habitat” for its transformative ability to infuse visual harmony into any space, this cabinet hardware collection brings tranquility through its soft, smooth forms. Habitat embodies the essence of simplicity and minimalism, while reflecting natural elements like the gentle curve of waves and the subtle contours of pebbles. From the delicately minimalist Button cabinet knobs to the more substantial appliance pulls, Habitat offers versatility that seamlessly integrates with various design preferences.

### **Precision 2 Collection - Cabinet Hardware** **Frank Allart & Company**

Frank Allart has developed a new transitional design and created the Precision Two Collection. The Precision Two Collection is a standard transitional design customizable door, window, and cabinet hardware collection. It has eight different texture options including: Smooth, Diamond Knurl, Diamond Mesh, Linear, Spiral/Starburst, Rotor, Groove, and Square Mesh.

Mix and match the textures, designs, sizes and finishes in this collection to create a personalized combination with more than 50 million unique standard options without having to worry about design or customization fees.

The Frank Allart website builder makes it easy to create a custom design for cabinet, entry door, garment, interior door, millwork, and window hardware. Each design has many functionality options as well that can fit any preexisting project condition.

### **Loxley Collection from Jeffrey Alexander** **Hardware Resources**

The Loxley cabinet knob and pull collection is a notable example of elegant simplicity. With its soft and clean design, Loxley effortlessly melds with a variety of decor styles. Two distinct cabinet knob shapes, round and oval, complement five standard pull lengths, and two appliance handles. With seven beautiful finishes to choose from, this collection reflects meticulous craftsmanship, adding a subtle yet impressive touch of sophistication to any living space..

## Product of the Year • Door Hardware Nominees

### Magnetic Catch Accurate Lock & Hardware

The Magnetic Catch offers a pristine method of keeping a door properly secured in the open and closed positions. Combining powerful rare-earth magnets with simple installation and no moving parts, this catch secures most doors seamlessly and quietly. It is an elevated alternative to popular ball catches and secure a door in place with ease of use.

### Adjustable Latch Baldwin Hardware

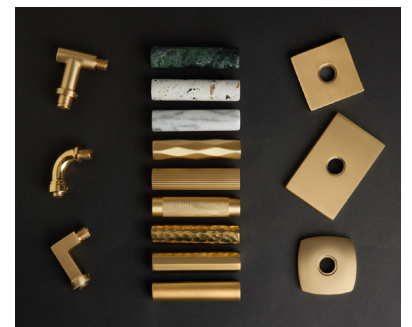

The Adjustable Latch easily adjusts from 2 3/4" to 2 3/8", with a pre-installed privacy spacer and enhanced knob and level strength for smooth handling. The ease of use and ability to go between knob and lever settings and the adjustable latch is a major advance in luxury door hardware. This allows a knob to turn left and right, while a lever can only be pushed down.

Previously, users had to understand a backset prior to order and builders and showrooms had to stock several options of latches for customers. Now, the ease of use and ability to go between knob and lever settings and the adjustable latch is being called a game changer. This new offering still utilizes the patented nylon anti-friction bolt head insert for quiet closing and reduced strike plate scratches, with the same incredible 28-degree latch quality for easy hand turning.

### Emtek SELECT Terrazzo Knobs and Levers Emtek

The Emtek SELECT Lever program offers a new level of customization: choose your textured lever grip (nine options for levers, four for knobs), stem design (four options), and pair with any of our available rosettes options (20+ options) - in any mix of finishes (11 finishes) - for hundreds of unique combinations. Now available in Green Marble: Known for its striking appearance and popularity in interior design, each Green Marble knob and lever showcases unique variations in veining and shading, making every piece one of a kind.

### **Precision 2 Collection - Door Hardware** **Frank Allart**

Frank Allart has developed a new transitional design and created the Precision Two Collection. The Precision Two Collection is a customizable door, window, and cabinet hardware collection. It has eight different texture options including: Smooth, Diamond Knurl, Diamond Mesh, Linear, Spiral/Starburst, Rotor, Groove, and Square Mesh.

Mix and match the textures, designs, sizes, and finishes in this collection to create a personalized combination with more than 50 million unique standard options without having to worry about design or customization fees.

The Frank Allart website builder makes it easy to create a custom design for cabinet, entry door, garment, interior door, millwork, and window hardware. Each design has many functionality options as well that can fit any preexisting project condition.

### **Door Stoppers** **Viefe US**

There are six styles. Five that attach to the floor and one, the Arpa, that attaches to the wall. They come in many different finishes, materials and decorative styles. With its glossy finishes in aluminum, stainless steel look, brushed brass, brushed black, and rustic brass, these door stops never goe unnoticed.

One of the most distinctive characteristics of Arpa wall style is its straight symmetric aesthetic, inspired by the iconic 1920s Art Deco style. Other styles come in three different woods and metal combinations or just different metals and finishes.

## Product of the Year • Engineering Nominees

### OLI Easy Move AD Waters

The Easy Move Water Closet gently moves any wall hung toilet up and down with a remote control. Easy Move is especially practical for the elderly, children and those with reduced mobility to easily and safely alter the height of the toilet seat to meet their needs. The mechanism is almost silent, easy to install and comes with one of the most efficient water-saving outlet valves.

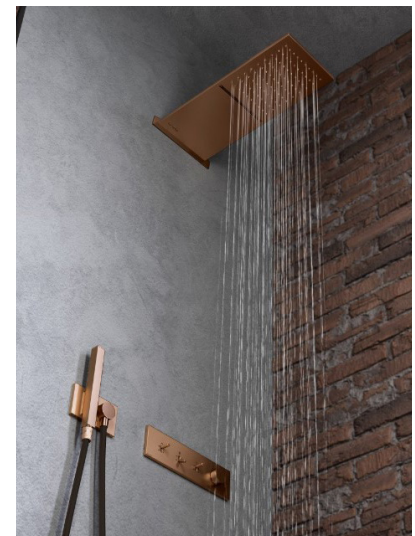

### Treemee Watt AD Waters

Treemee WATT is inspired by vintage lighting and transistor radios. Having already won multiple international awards, WATT features various solutions for the bath and shower areas. All handshowers are held magnetically.

Marco Baldini is the mind behind these extraordinary models that blend light with water, bringing a modern twist to a vintage concept and borrowing generously from the world of electricity. Electrical panels reminiscent of those of yesteryear deliver jets of water instead of light, taking on a whole new function and application, while the knobs offer a stylish reinterpretation of those on the old transistor radios.

Watt is the perfect collection for bringing an original, vintage touch to the bathroom, transforming the whole environment for a subtle yet novel look.

### AirPocket Door AIRMADA Drying Solutions

The AirPocket slide-in shower door is designed to replace the traditional swinging shower door to create a combination walk-in shower/steam shower, as the door can create a full shower seal. This walk-in/steam shower can be accompanied by either a flush or raised threshold.

The AirPocket Door is made possible thanks to the built-in AIRMADA Air-Jet technology, which dries the difficult-to-reach pocket after use. Like the AIRMADA Shower Drying System, hit a switch when you are done with your steam shower and the timer-controlled system will shut off at your pre-determined time frame.

Another advantage of a pocket door is the fact that it will free up significant space in your bathroom relative to the traditional swinging shower door. Made of stainless steel, the AirPocket Door is beautifully designed and built to last.

### **Adhesion Linear Drain** **Infinity Drain**

The Adhesion Linear Drain is inspired by the science of adhesion, where water droplets stick to a variety of surfaces to form unique patterns. To develop this abstract aquatic visual, the Gensler design team started by pouring water on a selection of luxurious surfaces to observe how the droplets moved and gathered. The modern pattern that evolved from this exploration has an even distribution of irregularity to create a look that's at once random and precise. While the connected dots are present throughout the pattern, the repeat is masked to prevent a tiling effect.

Adhesion Grate Style available in:

- Site Sizable
- Fixed Length
- Fixed Flange
- FCS Flange with Schluter®-KERDI

### **NEOREST LS Smart Bidet Toilet** **TOTO USA**

TOTO's NEOREST LS Smart Bidet Toilet offers visionary technology exquisitely designed for consumers' comfort and well-being. TOTO's NEOREST line is born of science and the company's belief in the importance of everyday wellness to rejuvenate consumers' bodies and minds. With its NEOREST LS, Smart Bidet Toilet, TOTO brings a new form of pure luxury to life.

Winner of two highly coveted international design awards – the Red Dot Design Award and iF Design Award – TOTO's NEOREST LS expands the NEOREST line of premium smart bidet toilets. NEOREST LS is designed to focus on elegance and comfort, creating a bath environment with hotel-like luxury and spa-like features. The NEOREST LS offers a new design, which provides a modern yet classic aesthetic that fits contemporary, transitional, and traditional bathroom interior design.

### **WASHLET S7A Bidet Seat** **TOTO USA**

TOTO's WASHLET S7A emerges as an exemplar of bidet seat elegance, meticulously crafted to cater to the nuances of elongated and round bowls in Classic and Modern lid styles. The WASHLET S7A's clean line design showcases the seamless fusion of its organic form with the toilet on which it is installed. Its lid's rich curved surface design is reminiscent of water's tranquil surface, contributing to its ability to enhance traditional, transitional, and contemporary bathroom interiors.

The WASHLET S7A complements the full range of toilet tank styles and its elegant slimline design ensures the WASHLET S7A effortlessly integrates with any bathroom environment. Its back has a new gentle forward tilt that adds a stylish facet to the design, and the sensor window is redesigned as a small semicircle on the unit's side, contributing to its overall elegantly slender design aesthetic.

The WASHLET S7A offers a heated seat and ergonomic design enhanced by seamless construction that eliminates the crevice where dirt and grime collect and can be operated by remote control.

## Product of the Year • Innovative Technology Nominees

### Pristive™ Tankless Reverse Osmosis System

#### Brizo

Pristive™ Tankless Reverse Osmosis System by Brizo® uses a state-of-the-art, six-stage filtration process to purify and enhance drinking water, reducing more than 90 contaminants. First, three core filters – a reverse osmosis filter, carbon filter, and pre-filter – work synergistically to provide purity and reduce toxins at the molecular level. Then, an optional remineralizer infuses water with calcite and dolomite, mimicking the natural percolation of minerals into water after rainfall, and subsequently enhancing taste and improving water pH.

The Pristive™ System is a practical alternative to single-use plastic water bottles. Over its two-year life cycle, the system can save the equivalent of up to 10,000 plastic water bottles. The Pristive™ System saves 60% more space compared to traditional tank systems, offering a compact solution that simplifies installation. With fewer hoses and hand connections required, it eliminates the need for tank maintenance.

### SPAH20 Electronic Shower Valve

#### MrSteam

The SPAH20 Electronic Shower Valve is a highly advanced system designed for those seeking a premium shower experience. It features customizable user settings, streamlined maintenance with self-cleaning capabilities, and compatibility with the iSteamX control for an enhanced management of water flow.

### ThermaTouch2 15

#### ThermaSol

The ThermaTouch2 in-shower control is available with a 7-inch, 10-inch or 15-inch screen option. The ThermaTouch2 15 boasts the largest display screen on the market, featuring a brand-new user interface and exclusive, cutting-edge functionalities.

ThermaTouch2 offers the convenience of smart home compatibility. Turn the shower on remotely, set water at a certain temperature and pressure, activate steam therapy and control chromatherapy options through voice-activated smart home assistants.

The ThermaTouch2 controls are equipped with popular apps, including YouTube TV, Netflix, Hulu, Paramount+, Apple Music, SiriusXM, HBO Max and more, ThermaSol also included relaxation apps such as Calm and Chakra Meditation as well as preset tranquility scenes.

ThermaTouch2 controls are powered by Android™ technology and allow internet access through WiFi or an ethernet connection.

## Product of the Year • Accessory Nominees

### **Modello i** **Amba Products**

This new single bar towel warmer, offered in round and square profiles and 4 different lengths. The bars are sold individually and can be installed vertically or horizontally. This flexibility compared to any other product like it on the market gives more creative freedom to mix and match sizes, finishes and orientations in which it can be installed.

### **Brisa Body Dryer** **JTK Designs LLC**

Brisa is innovative, with nothing else like it on the market. Brisa meets a convenience, comfort and performance need that all consumers are seeking. The Air of Luxury™ Brisa™, the first fully integrated whole body dryer is innovative in both design and performance. With multiple finish options, Brisa™ will easily fit within any design aesthetic while the intuitive touch screen controls provide customized heat and air flow, delivering an entirely new body drying experience.

### **Countertop Glass Rinser** **Mountain Plumbing Products**

The Glass Rinser uses high-pressure water spray to replace bottle brushing and tedious scrubbing of glassware and water bottles. This product features a modern, low-profile design that sits on a kitchen countertop. The diameter is large enough to encompass the ever-popular Stanley and Yeti cups, as well as the large bodied red wine glasses. The Glass Rinser is available in multiple finishes.

### **Seattle Series in Special Finishes** **Vernon Towel Warmers**

Vernon Towel Warmers introduced 20 finish options for the Seattle Towel Warmer Series, including nine finishes available in stock. By expanding our finish offerings, customers can seamlessly coordinate their towel warmers with all other bathroom products creating a cohesive design aesthetic. All Vernon products are equipped with sophisticated, high-quality Italian heating elements that adhere to international standards.

## Product of the Year • Furniture Nominees

### Gardner Collection from Jeffrey Alexander Hardware Resources

Gardner is a symphony of sleek design and purposeful functionality with the clean lines of slab drawer fronts and minimalistic matte black tab pulls, harmonized by large drawers for storage that boast sturdy dovetail joinery. Gardner’s 18-1/2” depth is optimized to provide ample room for all bathroom essentials while maintaining a compact and space-efficient footprint.

The Gardner floating vanity can be transformed into a free-standing furniture-style vanity by adding three distinct leg options. Opt for the mid-century allure of matte black steel pencil legs, embrace the modern-industrial vibe with the matte black square steel frame, or maintain a sleek coherence with a coordinating wood frame that elegantly complements the vanity.

### DOT Vanity Hastings Bath Collection

The DOT all-wood collection features playful splashes of color for an attention-grabbing, modern bathroom design. Available in 19 colors, the solid Ash wood vanity offers two-door, two-drawer or one-drawer options and is available in 80cm and 100cm. The ‘Dot’ handle accent offers the ability to go tone-on-tone or contrast the cabinetry for an added level of personalization and individuality.

Made in Italy for style and quality, the inspiration for DOT stems from the pure forms and ethical values of Nordic flavor. The wood and its natural expressiveness are the soul of this collection, guaranteeing timeless style and quality. The timber used comes from areas subject to controlled reforestation, which focuses on ecocompatibility processes; when taken from certified forests, the wood is a renewable, inexhaustible, and irreplaceable source in our ecosystem.

In addition to the vanity, the collection offers a range of mirrors, wall storage solutions, and a robe/towel hook, all featuring the DOT that ties the aesthetic together.

### NEWTERRA LACAVA

The 37” NEWTERRA features concrete countertops with integrated sink bowl and wood or metal console stands, natural and renewable materials, and a modern simultaneously surprisingly rustic design. The vanity base is made of solid wood with aged wood appearance, or welded stainless steel or brass. The vanity top is a concrete slab with an integrated sink available in a choice of finishes and faucet drilling options.

The collection brings texture and experience of the outdoors and nature into the living space while maintaining the simplicity and sternness of modern design. Concrete is versatile, easy to mold into different shapes, and allows for different levels of detailing. The console is therefore shaped to a curvy outer perimeter for the feel of softness and lightness, while the interior of the sink bowl is shaped into straight walled slopes.

Although lightweight concrete mix is utilized for large slabs, the substantial load the top creates is carried by a solid welded metal console with optional shelf for open storage or no shelf for accessibility in an ADA compliant installation. The multiple finish options on both the top and console stand, and a choice of sizes, make the collection a perfect furnishing for a private residence as well as public or hospitality.

### **Winemaker Series** **Native Trails**

The Winemaker Series brings the essence of California's wine country to upscale bathrooms through sustainable practices and forward-thinking design. Inspired to give a second life to a quality material regularly discarded after use, the Winemaker Series features re-purposed white oak staves which were originally used to enhance the flavor and aroma of wine during the fermentation process. Rich in character, the reclaimed material is transformed into five distinctive pieces, including two freestanding vanities, a floating vanity, and matching mirrors that exude natural beauty and accessible functionality. The collection's storied history, the new life it gives this material, and the care that goes into its hand-built construction enriches bathrooms with a unique, soulful element that inspires us to find beauty and functionality in unusual places.

### **Portico Console** **Stone Forest**

A simple silhouette adorned with clean lines and delicate curvature, the Portico Console Sink is a refined work of precise engineering and sculptural ingenuity that harkens back to mid-century modern design. Carved from a single block of antique gray limestone, the console sink boasts an integrated sink with a generous expanse of countertop. In its entirety, it effortlessly demands attention.

The Portico was inspired by the grandeur of the Brooklyn Bridge and the intricate stonework of buildings from the 1930s and 1940s to create a console that embodies the graceful curves observed in those architectural marvels.

### **Colville Vanity from the Christopher Grubb Collection** **STRASSER**

Designed by Beverly Hills interior designer Christopher Grubb, Colville's versatile wall-mount design brings a fresh, modern approach to wood bath vanity selections. It's available in three unique finishes, or finish combinations, that stay true to modernism's warm and neutral hues: midnight oak stain, gloss white finish with midnight oak stain, or natural oak finish combined with walnut.

Available in 30-, 36-, 48-, and 60-inch sizes, each vanity comes with a curved quarter countertop and undermount sink, with an option for double sinks for the larger 60-inch size vanity. Complements for the Colville vanity include mirrors, built-in outlets, finger pulls or decorative hardware, offering designers and homeowners alike new and exciting ways to create and personalize luxurious bath spaces. All models feature heavy-duty drawer glides and dovetail drawers.

## Product of the Year • Kitchen Fixture Nominees

### BLANCOCULINA II

#### BLANCO

BLANCO re-introduces its iconic semi-pro faucet with the BLANCOCULINA II collection, which offers modern design details and a full kitchen suite in a range of trending finishes. Designed with a sleek, contemporary aesthetic, the BLANCOCULINA II features a high-arc spout with triple coil protection and magnetic docking system to connect back to the semi-pro arm. The faucet's dual spray function allows for seamless switching between a powerful spray and an aerated stream, making kitchen tasks effortless and efficient. Solid brass construction ensures durability, while the variety of trending finishes provides a sophisticated look that complements any kitchen décor.

The full BLANCOCULINA II collection features two semi-pro sizes, a beverage faucet and pot filler in six finishes including the latest satin dark steel and satin platinum, plus touchless dual sensor technology in Chrome and PVD steel.

### Kintsu 64906LF-HLK007

#### Brizo

Essential, yet evolved. Organic, yet cultivated. Instinctive, yet refined. Contradictions create harmony in the Kintsu® Kitchen Collection. Its fluid lines speak to minimalist sensibilities, while crafted touches reflect an artisanal soul. Rooted in minimalism and the natural world, the Kintsu® Kitchen Collection looks to wabi-sabi philosophy for its abstract, conceptual geometries.

### FIRA Sink and Accessories

#### Julien

Handcrafted in Italy, each FIRA sink offers a perfectly smooth, non-porous finish. The firing process not only makes the surface impervious to dirt, it also fuses the materials together leading to higher impact and scratch resistance.

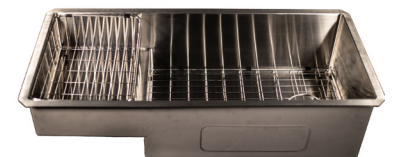

Its accessory ledge allows FIRA to work as a true workstation. It has a versatile design: available in two styles, single and double bowl, two double bowl configurations and two bar sink installations. It is also designed to optimize water drainage and comes with multiple accessory options.

### STEPPE3918 x Studio Dearborn

#### Nantucket Sinks USA

The Steppe3918 was designed by Sarah Robertson. Sleek and practical, this two-tiered sink is designed with an eye on function. The Steppe's innovative design features a full depth basin plus a lowered platform and custom dish drying rack for rinsing and air drying. The 10-inch deep, 25"-wide large single bowl allows plenty of space to soak and clean large cookware and bakeware. Adjoining the spacious basin, a raised platform drain area helps keep drying dishes off counters.

### **Tenet Pull-Down Kitchen Faucet** **Pfister Faucets**

The Tenet collection is for the true minimalist who finds beauty in simplicity and values precise functionality. Each fixture sits tightly flush, a feat of inner engineering that allows for crisp lines and a tidy footprint.

The Tenet Pull-Down Kitchen Faucet features a high arc swivel spout for added clearance, reach, and maneuverability, magnetic docking, five handle finishes, and a forward-handle design that helps where space behind the faucet is limited.

### **HexBottom® Kitchen Sink Collection** **Ruvati**

Ruvati's HexBottom® kitchen sink collection features an etched geometric design that keeps sinks looking new without grids or sink protectors. This patent-pending technology brings an embossed finish to stainless steel sink bottoms that is both beautiful and functional. The etched geometric print manifests as a subtle texture that protects against surface scratches and daily wear.

HexBottom is a fresh alternative perfect for modern kitchens with its clutter-free aesthetic and stylish matte finish. The Gravena Hex is an undermount sink with a deep rectangular basin and curved corners. Its spacious 30" capacity is sized to handle the largest pots and pans with ease.

Roma Hex is a workstation sink with Ruvati's signature built-in ledge to accommodate the sliding accessories, including a composite cutting board, and the brand's patented folding drying rack. Both sinks are constructed from premium 16-gauge stainless steel that will never rust or stain.

### **Gantry Faucet** **Waterstone Faucets**

The Waterstone Gantry Pulldown's patented, tall design was modeled after the massive size and strength of Gantry cranes in U.S. harbors and shipyards. Gantry cranes do the heavy lifting when it comes to unloading cargo ships. The faucet's pre-rinse spray arm is spring-loaded and has a range of motion to reach every corner of a sink.

Gantry faucets come in 34 finishes as well as custom and splits and three spout options, stationary, 12" or 18" articulated, and each swivel spout can spin 360 degree. The ergonomic sprayer handle is fully insulated against heat and swivels easily.

The handle can be installed in the front, on the right or the left and can be adjusted up to 22.5 degrees right or left for clearance from the back splash. Accessories include soap/lotion dispensers, air switches, and air gaps.

## Product of the Year • Bathroom Fixture Nominees

### Easy Move by OLI AD Waters

The Easy Move Water Closet gently moves any wall hung toilet up and down with a remote control. Easy Move is especially practical for the elderly, children and those with reduced mobility to easily and safely alter the height of the toilet seat to meet their needs. The mechanism is almost silent, easy to install and comes with one of the most efficient water-saving outlet valves.

### Simas Balloon AD Waters

Balloon by Simas is revolutionizing bathroom design with bold colors and forms. The Italian made rounded square and circular washbasins offer 13 finishes and six glossy colors that include Caramello, Capri, Menta, Narcisco, Rubino and Graphite. Offering endless customization opportunities, Balloon by Simas basins can be ordered in varying sizes and depths to serve as focal points in any bath.

### Lisse Americh

Almost a freestanding bath, the Lisse has one straight side that fits flat against a wall allowing for the installation of a wall-mounted faucet. It is a 66" bath with soft curves for the head and neck and a gentle slope for the back. The flat side features a tiling flange. The Lisse is available in all Americh Standard colors.

### Maude Americh

Maude was a request by a casino design team for use in luxury suites. Maude is a comfortable bath with a beautiful, contemporary freestanding look. The large deck provides a place to sit while getting in and out of the bath while substantial armrests and sloped backrest offer true relaxation.

### **Porter 61" Acrylic Tub** **Barclay Products**

Barclay's Porter Acrylic Freestanding Tub offers a sleek design, uninterrupted lines, and comfortable capacity to deliver a modern and luxurious bath experience. The Porter tub is available in five shades to pair with any bath decor. There also is a sleek overflow slot that does not require a plate cover and includes a matching drain.

### **Designer Series** **Blu Bathworks**

The Designer Series epitomizes innovation and customization in modern bathware. This collection is meticulously crafted from Blu Bathworks' signature eco-friendly blu-stone™ material, which combines the aesthetic appeal and tactile experience of natural stone with superior strength and durability compared to acrylic.

The Designer Series offers more than 400 customization options ranging from 70 to 90 inches in length and 32 to 48 inches in width and offers numerous skirts, shelves and finishes. The Designer Series can adapt to any design aesthetic or space requirement, making it a versatile choice for both residential and commercial applications.

### **Poli Console Series** **Hastings Bath Collection**

The Poli console series typifies Italian design and craftsmanship. The Poli 58 and Poli 30 have a slim, stylish profile, making them a statement piece that adds modern flair to any space. Each model offers optional accessories, including a swivel towel rail, soap dispenser, toothbrush holder, and adjustable magnifying mirror, allowing you to customize and add a unique look to your space.

Poli 58 is a sleek cylindrical pedestal sink that features a striking stainless steel metal frame and modular accessories. The basin is available in 13 contemporary colors, including neutrals, pastels, bold hues, and a marble-look. The frame is available in five metallic finishes.

Both Poli models are crafted using a luxurious ceramic material that is antibacterial and resistant to stains and surface damage. Optional accessories include a swiveling towel rail, soap dispenser, toothbrush holder and adjustable magnifying mirror.

### **Lido Freestanding Bathtub** **Hydro Systems**

Inspired by the dramatic curves of Miami's iconic mid-century Fontainebleau Hotel, Lido is the result of a design process aimed at spanning design aesthetics from modern to transitional design. Sculptural design meets function in the 1.5-inch-wide deck and gentle downward dip in the tub's interior. The forward-tilting shape enables ease of entry and makes a dramatic statement. Lido measures 66 inches long and is outfitted with a 31-degree back slope that contours the body and can be optimized with any of the brand's cutting-edge hydrotherapies, including Cold Plunge, Hydro Indulge, and Thermal Air, transforming a soaking vessel into a therapeutic or indulgent at-home experience.

### **BRIO TUB21** **LACAVA**

LACAVA's BRIO tubs project luxurious opulence and intricate fluted detailing making an interior statement of their own. The tubs are geometrically simple oblong soakers made of solid surface, available in gloss and matte white. The repeat flutes on the entire perimeter invite many creative possibilities for installation.

### **Centro** **Roc-Base**

Centro offers the most versatile shower base in the market. Choose dimensions, colors, and even the drain placement, allowing for a truly customizable experience. Remarkably thin, this shower base is perfect for Italian-style installations.

Centro is the only seamless shower base in granite or quartz certified by CSA in North America. Beyond its visual appeal, Centro is the thinnest shower base available, making it an ideal choice for installations where elegance and space are paramount.

A unique feature is its ability to conduct heat. This innovative product makes it a problem solver for various situations, whether addressing concerns about floor integrity or ensuring a seamless blend with the surrounding environment.

### **Bronze Edo Vessel** **Stone Forest**

Stone Forest's exceptionally crafted Edo Vessel Sink was imagined in collaboration with designer Tod Babick. The sink is available in both Golden Bronze and Desert Cream Limestone. The enigmatic Edo Vessel pays homage to the rich heritage of Japanese pottery while pushing the boundaries of contemporary design. This stunning fixture is a testament to the unique ability to honor the natural world through imaginative creations and a commitment to quality.

Born of fire, this substantial bronze vessel sink is crafted using traditional sandcasting techniques. The exterior of the sink is "rough cast" prior to applying a patina, resulting in a unique finish on each sink, which reflects the designs ancestry in traditional Japanese pottery.

### **NEOREST LS Smart Bidet Toilet** **TOTO USA**

TOTO's NEOREST LS Smart Bidet Toilet offers visionary technology exquisitely designed for consumers' comfort and well-being. TOTO's NEOREST line is born of science and the company's belief in the importance of everyday wellness to rejuvenate consumers' bodies and minds. With its NEOREST LS, Smart Bidet Toilet, TOTO brings a new form of pure luxury to life.

Winner of two highly coveted international design awards – the Red Dot Design Award and iF Design Award – TOTO's NEOREST LS expands the NEOREST line of premium smart bidet toilets. NEOREST LS is designed to focus on elegance and comfort, creating a bath environment with hotel-like luxury and spa-like features. The NEOREST LS offers a new design, which provides a modern yet classic aesthetic that fits contemporary, transitional, and traditional bathroom interior design.

### **Freestanding Tub - FSJ5832MW** **Westbrass**

The exquisite Freestanding Tub is crafted with precision and offers generous dimensions of 58x32/ 65x33/ 70x35x inches by 25.5 to provide ample space for relaxation. Experience the perfect blend of elegance and functionality. This tub features lumbar support for unparalleled comfort and relaxation, providing ergonomic back support for a luxurious bathing experience.

## Product of the Year · Bathroom Water Delivery Nominees

### Treemee Watt AD Waters

Treemee WATT is inspired by vintage lighting and transistor radios. Having already won multiple international awards, WATT features various solutions for the bath and shower areas. All handshowers are held magnetically.

Marco Baldini is the mind behind these extraordinary models that blend light with water, bringing a modern twist to a vintage concept and borrowing generously from the world of electricity. Electrical panels reminiscent of those of yesteryear deliver jets of water instead of light, taking on a whole new function and application, while the knobs offer a stylish reinterpretation of those on the old transistor radios.

Watt is the perfect collection for bringing an original, vintage touch to the bathroom, transforming the whole environment for a subtle yet novel look.

### Treemee Watertube AD Waters

Massimiliano Braconi, the designer behind the new Watertube, explains that the faucet was inspired by the pure, clean lines of classic public fountains we used to find in town squares, from which the water flowed through a simple copper pipe, designed to slot seamlessly into a contemporary, industrial-style bathroom. Watertube is a complete collection of steel taps, with a distinctive, carefully studied, innovative design. The simple, rounded lines, reminiscent of a regular water pipe, are the ideal choice for those seeking a designer look with a distinctive style and plenty of character.

Watertube is crafted in steel and is available in PVD finishes.

### Milne Collection Barber Wilsons

The Milne Collection is crafted with the highest quality and best possible materials. These designs, destined to stand alongside our long-established lineup, mark a gentle evolution in style and class.

Milne Editions were specified for the recent refurbishment of Claridges Hotel. Named after the legendary architect behind the iconic entrance hall and remodeling of the hotel in 1929, the design alludes to the past whilst deploying all the advantages of modern engineering. It continues our proud history of collaborating with Claridges to create the very best in British manufactured brassware - a heritage now available in the U.S.

### **AIR Widespread Lavatory Faucet** **Baril**

The Baril AIR Widespread Lavatory Faucet features a modern design with clean lines and geometric shapes, making it suitable for various bathroom styles.

- Offers customizable options with different handle choices.
- Includes a drain and adjustable aerator for water efficiency.
- Designed for easy installation and future-proofing with universal components.
- Available in multiple finishes to match decor preferences

### **Jalama** **California Faucets**

The Jalama® Series features seven uniquely textured handle options, including Intaglio, a new finishing technique where a surface is engraved, then a black patina is applied, bringing a striking new dimension to customizing a faucet. Choose one finish for the cylindrical handles and another for the spout and accents. Available in 25-plus finishes including 12 in ultra-durable PVD.

### **San Elijo™** **California Faucets**

The San Elijo™ Series blends modern design with the natural warmth of teak wood. With a softened contemporary look, San Elijo features a gently rounded spout and optional teak wood lever or cross handles. Even the wooden handles are lightly rounded for an overall more graceful look and feel. Recognized for its durability and resistance to moisture, teak wood features an exquisite grain pattern which infuses texture and a touch of organic beauty into the bath. Homeowners and designers can pair any of California Faucets 25-plus artisan finishes with the teak wood handles or even create a unique split-finish look to make a personalized statement in the bath.

### **WaterSconce** **California Faucets**

Designed to resemble a spotlight, the solid brass WaterSconce lets users choose between air, rain, and massage shower settings for a spa-like shower experience. Available in any of California Faucets' 25-plus artisan finishes, the stately WaterSconce features unique edge detailing. Designers and homeowners can choose between a knurled edge, similar to the etchings found on tools, or a coined edge like the side of a dime.

### **O-XY** **Fantini**

Fantini's O-XY faucet is a contemporary and innovative design that combines geometric precision with functional elegance. Designed by Marco Williams Fagioli, the O-XY collection draws inspiration from the Cartesian coordinate system, resulting in slim, narrow shapes that embody a sleek and minimalist aesthetic. Fagioli drew inspiration from Vitruvius' description of cranes used for lifting heavy loads in architecture. He aimed to create proportions that reflect machines that speed up work, resulting in a design that's both functional and aesthetically pleasing.

The standout feature of the O-XY faucet is its unique handle. It's a texturized rectangle that rests on the faucet body, featuring an interwoven pattern that's both decorative and functional. This texture provides a pleasant, soft feel to the touch, enhancing the user experience.

The faucet body is characterized by spare, simple, and extremely light geometrical lines. This design approach creates a totally contemporary look that emphasizes the product's sleek profile.

### **Venezia by Venini** **Fantini**

Venezia by Venini is a luxurious and artisan faucet collection that combines the expertise of Fantini, Venini, and Studio Thun. This collaboration results in a unique product that showcases Italian craftsmanship and design excellence.

The Venezia collection is characterized by a minimalist geometric shape with a parallelepiped form and rectangular base. There is an emphasis on transparency and chromatic fluidity. Exquisite two-tone and filigree handles made from Murano glass evoke style, elegance, refinement, luxury and the memories of historic Venetian traditions and surroundings

The two-tone handles are cylindrical, smooth, and have rounded edges. They improve the fluid effect of the two-tone combinations: aquamarine/green, amethyst/amber, red/amber.

The filigree handles are available in white and black, using an elegant decorative technique that was perfected in the 16th century by Murano master glass makers. It is created by adding straight or interwoven glass rods into a transparent body, thus creating a delicate lacy effect within the glass.

**Modelle Widespread**  
**House of Rohl**

The Rohl Modelle Widespread faucet is an elegantly designed transitional faucet that offers a choice of C or U spouts and multiple handle and finish options.

**Ribel Arca Widespread**  
**House of Rohl**

The Ribel Arca Bathroom Collection pays homage to the unmistakable and elemental form of the arch, while being inspired by the innovative aqueducts of classical Rome. The Arca Collection captures the beauty of the arch in line and curve, the spout follows a clean, rounded geometry, while nuanced, two-step details on the handles and base create a solid foundation.

Arca embodies symmetry that is effortless, exquisite, and always relevant. The collection is available in a full bath suite in a handful of finishes including chrome, brushed nickel, black, and brushed gold to fit any aesthetic.

**Aspirations Waterfall Tub Spout**  
**Lixil**

The Aspirations Waterfall Diverter Tub Spout creates a soothing, cascading flow of water and doubles as a shelf to keep bathing essentials handy. The push-button diverter makes it easy to switch from showering to filling the tub. This contemporary waterfall tub spout is designed to complement the entire Aspirations bathroom collection. The tub filler mounts easily on existing plumbing pipes for remodeling and new construction needs. The shelf on top of the tub filler holds up to 100 pounds.

**Tolmin Faucet Collection**  
**Newport Brass**

The Newport Brass Tolmin Widespread Lavatory Faucet features a contemporary design available in multiple finishes to match any décor requirement.

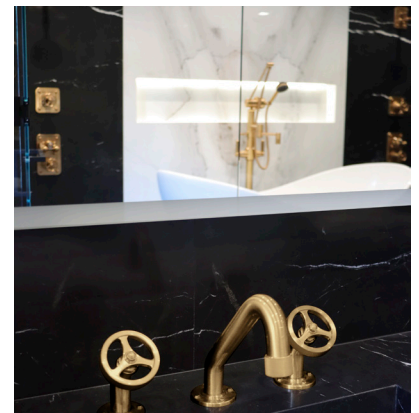

### **Winter Park™ Widespread Bathroom Faucet** **Pfister Faucets**

The refined Winter Park™ collection is a modern take on traditional design. Coining details update classic silhouettes, and clean lines blend into stepped bases. Every component is carefully executed and purposefully placed, delivering a bold, balanced look for the contemporary home.

### **Argonaut Bathroom Suite** **Waterstone Faucets**

Argonaut by Waterstone is inspired by naval engineering. Redefining the shower experience, the Argonaut line merges functionality, aesthetic appeal, and user friendly design. This line features the Retractable Wheel Hand-Shower. Designed to eliminate unsightly hanging hoses, the retractable hose locks in place when used and retracts seamlessly. This line is also accompanied by the freestanding Tub Filler, which has infinite adjustability in orientation to the bathtub and fills at 18 gallons per minute. With a one-of-a-kind diverter, this unique design was made to enhance every bath experience.

### **Handheld Shower Filter | HSF531-62** **Westbrass**

The filter handheld shower head has the superior ability to filter out harmful substances from water, enhancing both skin and hair health, and offering particular benefits for those with colored hair.

### **Filtered Shower Head** **Westbrass**

The Filtered Shower Head provides a luxurious shower experience through its seven premium spray settings while simultaneously enhancing water quality. It protects hair and skin, offers versatile and user-friendly options, and combines functionality with aesthetic appeal, making it a standout choice for any bathroom.
